Mr. John N. McMahon  
Deputy Director  
Central Intelligence Agency  
Washington, DC 20505

Dear Mr. McMahon:

With elections critical to United States interests occurring in the Phillipines in March and Germany later in the year, I was wondering if there might not be something that American political consultants could contribute.

There are many of us in the country today whose talents could be utilized. Although we all have our own businesses, most of us would welcome both the challenge and opportunity to help where we could make a difference.

Very truly yours,

STAT
